

EVERY SERVICE COUNTS

EXTREME PROTECTION TECHNOLOGY

Extreme Protection Technology has been specifically formulated to be unique in the market, by adopting the most advanced chemical technology available for both petrol & diesel engines to offer the following benefits:

- Provides a protective barrier between metal surfaces
- Significantly reduces friction and wear
- Prolongs engine & vital component life
- Increases oil life by enhancing additive package
- Provides additional start up protection
- Reduces engine noise & operating temperature

BEFORE

AFTER

FORMULATED TO PROVIDE ADDITIONAL BOUNDARY LUBRICATION BY BONDING TO METAL SURFACES, REDUCING FRICTION & WEAR TO ULTIMATELY EXTEND THE LIFE OF VITAL COMPONENTS
