

PETROL FUEL SYSTEM CLEANER

PFC325

PRO AUTO®

PRODUCT FEATURES:

- For all petrol engines including direct injection
- Removes gum & varnish deposits
- Restores performance & fuel economy
- Contains a powerful octane booster to increase performance
- Safely removes moisture from the fuel system
- Contains additional lubricity improvers

DESCRIPTION:

Petrol Fuel System Cleaner is a highly concentrated multi-purpose fuel treatment designed to clean both conventional & direct injection petrol fuel systems. The product's advanced formulation is designed to safely clean away gum, varnish & combustion chamber deposits, as well as remove moisture inside the fuel system. The presence of these contaminants inside the fuel system can significantly affect the performance, economy & longevity of your petrol engine.

DIRECTIONS FOR USE:

Add the entire contents of the bottle to the petrol fuel tank. One 325ml bottle treats up to 60L of fuel. Suitable for all petrol engines.

SPECIFICATIONS:

Appearance:	Light green coloured liquid
Transparency:	Clear
Density:	0.82 ± 0.02 g/mL

ORDERING INFORMATION:

CODE	PACK SIZE	QTY/CARTON
PFC325	325ml	24

TEST DATA & CLAIMS:

- Contains octane boost with an increase of XYZ RON
- Contains advanced PEA cleaning agents
- Excellent performance on combustion chamber deposit (CCD) control
- Good performance on intake valve deposit (IVD) control
