

LANOLIN PROTECT

LPS350

PRO CONSUMABLES®

PRODUCT FEATURES:

- High density lanolin lubricant suitable for a wide variety of applications
- Food grade suitable for food processing machinery
- Displaces moisture from surfaces, protecting them from corrosion
- Protects equipment from atmospheric acid and salt corrosion
- Protects electrical applications and appliances from corrosion
- Resists breakdown in high temperatures and temperature variation

DESCRIPTION:

Lanolin Protect is a high quality, natural, non-evaporative spray lubricant containing lanolin. It provides long lasting lubrication and corrosion protection against moisture, salt and acids in a wide variety of applications including lubrication of industrial and automotive equipment as well as trailers, rollers, hinges and locks.

Lanolin Protect can also be used as a penetrant to loosen rusted screws and bolts and provides anti-seize protection which is particularly useful in marine environments. It does not harm plastics, metals, paints, fibreglass or seals and is not washed off by water.

DIRECTIONS FOR USE:

Shake the container to ensure product is mixed correctly. Colder climates will require a little extra shaking.

Best applied to dry, clean surfaces. When applying to objects, hold 30cm away from object. Start from the top and coat evenly from one side to the other.

Reapplication in exterior applications is recommended after every 6–8 months.

SPECIFICATIONS:

Appearance:	Dark brown liquid
Odour:	Solvent odour
Specific Gravity:	0.74 @ 25°C

ORDERING INFORMATION:

CODE	PACK SIZE	QTY/CARTON
